

Investigator:	Ashesh Jani Phone: (404) 778-3827 Email: abjani@emory.edu
Primary Research Interest:	Radiation Oncology
Description of Research:	General objectives are to correlate demographic, disease, and treatment with dosimetric, toxicity, and cancer-control outcomes of radiotherapy for prostate cancer patients.
Relevance to VA:	Atlanta VA is one of four hospitals affiliated with the Dept of Radiation Oncology at Emory University and has the largest number and longest available follow-up information of prostate patients in our institution consortium.
