Investigator:	**Ana Antun** Phone: (404) 728-7680 ext. 3879 Email: ana.antun@va.gov
Primary Research Interest:	Internal Medicine
Description of Research:	My research will focus in benign hematology disease, mainly in bleeding and thrombosis disorders but also thrombotic/bleeding process in oncologic patients.
Relevance to VA:	Due to high incidence of bleeding and thrombosis related and unrelated with oncological disease, it's important for our patient a better understanding and management of this life threatening process.
