

Investigator:	April Maa Phone: (404) 321-6111 ext. 206817 Email: amaa@emory.edu
Primary Research Interest:	Ophthalmology
Description of Research:	Dr. Maa focuses on tele-ophthalmology and screening as her main research interests. She is the Director of Tele-ophthalmology and Comprehensive Services at the Atlanta VA.
Relevance to VA:	Veterans are at high risk for potentially blinding eye disease because they are an older cohort of patients. Technology-based Eye Care Services (TECS) is a new remote care initiative that aims to improve veteran access to eye care and prevent blindness by early detection of disease.
