

Investigator:	<b>Octavian Ioachimescu</b> Phone: (404) 321-6111 ext. 7258 Email: oioachi@emory.edu
Primary Research Interest:	Internal Medicine
Description of Research:	Sleep: - Obstructive sleep apnea severity - mathematical models of severity - Sleep apnea in elderly veterans - lipid oxidation markers - Determinants of symptomatic and functional impairment in patients with sleep disorders and other comorbidities (asthma, COPD, obesity hypoventilation syndrome, etc) Pulmonary and Critical Care: community acquired pneumonia
Relevance to VA:	All my research is relevant to the veterans because it involves human subjects from this population and poses clinical questions related to their respiratory and/or sleep health.
