

Investigator:	<b>A.M. (Anna) Barrett</b> Phone: (973) 941-0074 Email: Anna.Barrett2@va.gov
Primary Research Interest:	Other
Description of Research:	Dr. Barrett examines brain-behavior relationships and methods of translating neuroscience to better rehabilitation approaches for neurologic disorders, with an emphasis on spatial cognitive disorders after stroke.
Relevance to VA:	Dr. Barrett's clinical programs and research work enhance the quality of care for neurologic disorders and the life experience of veterans with stroke by increasing the treatment options and healthcare service delivery, to achieve greater function and freedom.
