

Investigator:	John Payan Phone: (404) 321-6111 ext. 5823 Email: john.payan@va.gov
Primary Research Interest:	Diagnostic Radiology
Description of Research:	To assess possible correlation between plantar fasciitis and posterior tibial tendon changes.
Relevance to VA:	The Atlanta VA Medical Center is ideally suited to study the plantar fasciitis disease process since it is most commonly seen in one of our largest patient demographics.
